

Syed Umair Ali

Dedicated Web Developer with strong problem-solving skills and expertise in modern frontend technologies, seeking roles in **Fullstack Development** and **AI/ML** to build responsive user interfaces and contribute to innovative, data-driven solutions.

Academic Details

**Bachelor of Technology (B.Tech)
Computer Science & Engineering
(AI & ML)**

Khwaja Moinuddin Chishti Language
University, Lucknow
Graduated: 2025 | CGPA: 6.69

Soft Skills

Analytical | Collaborator | Problem solving |
Time Management | Email-writing

Technical Skills

Programming Languages:
JavaScript(ES6+), Python, SQL

Frontend:
React 18, tailwindCSS, Framer motion,
Backend:
Fast Api, Node js, Rest Api's, Uvicorn
AI/ML:
LangGraph, LangChain, Groq Api,ReAct
HITL

Core Competencies

- Agile Methodologies
- Software Development Life Cycle
- Debugging
- Web Services
- Performance Optimization

Personal Details

Languages Known: English, Hindi
Address: Budaun, Uttar Pradesh.

Profile Summary

B.Tech CSE (AI & ML) graduate with 3 internships and 6+ projects spanning full-stack web development and AI/ML engineering.Proficient in React 18, FastAPI, LangGraph, and Groq API. Built production-grade systems including an autonomous LangGraph email agent, a RAG-based Document Q&A system, and an AI-first CRM for life sciences. Experienced with agile workflows, REST APIs,PostgreSQL, and vector databases. Actively seeking full-time roles in Full Stack or AI/ML Engineering.

Work Experience

Web-Development Intern
MOTION CUT, LUCKNOW (remote)
Responsibilities:

- Developed and deployed three interactive web projects using **React, HTML, CSS, and JavaScript.**
- Built a personal portfolio website with integrated contact form and Dynamic Content loading.
- Created a **Movie Fan Page** with embedded YouTube trailers and dynamic quote features
- Designed a **Cricket Star Showcase** platform profiling iconic cricket players.

September 2024 – October 2024

EduNet Foundation with (Microsoft, SAP & AICTE)
Bengaluru, Karnataka (remote)
Responsibilities:

- Developed a Plant Disease Detection System using **Convolutional Neural Network** for image recognition.
- Delivered actionable insights for farmers by detecting plant diseases and recommending Treatments.

December 2024 – February 2025

Infosys Springboard Internship (remote)
AI Intern – Ambient Email Agent Development

- Built an autonomous Ambient Email Assistant using **LangGraph and Google Gemini**, enabling intelligent email triage, contextual understanding, and action execution (ignore,notify, respond).
- Designed a multi-node, stateful workflow incorporating **ReAct reasoning, tool integration, and Human-in-the-Loop (HITL) checkpoints** to ensure safe and controlled automation.
- Developed a custom evaluation pipeline with human-labeled datasets to measure intent accuracy, perform error analysis, and improve decision quality.
- Implemented persistent memory and LangSmith observability for adaptive behavior, transparent reasoning, and secure version-controlled deployment using Git and GitHub.

November2025 – February 2026

Projects

HCP CRM : Ai first CRM for life sciences
[React 18] [Redux Toolkit] [FastAPI] [LangGraph] [Groq API (gemma2-9b-it)] [PostgreSQL] [SQLAlchemy]

- AI-powered CRM for pharmaceutical field reps with **dual-mode input**: structured form OR conversational AI chat. •
LangGraph agent with **5 custom tools** — extracts entities, summarizes interactions, and auto-logs to PostgreSQL.

Document Q&A Assistant — Multi-modal RAG System
[FastAPI] [Groq API (llama-3.1-70b)] [Groq Whisper] [PyPDF2] [React 18] [Vite] [Tailwind CSS] [Zustand] [Axios] • RAG-based Q&A system supporting **PDF, audio, and video** file types with real-time AI chat.

- Audio/video transcription via **Groq Whisper API**; PDF text extraction via PyPDF2.
